

Dennis Bauman, MD, grew up in western New York state. He graduated Phi Beta Kappa at Williams College where he received his undergraduate degree and graduated MD from Harvard Medical School. His internship, residency and cardiology fellowship were all done at the University of Utah Medical Center in Salt Lake City. He was a Major in the US Army, served as a US Army Flight Surgeon and was awarded the Bronze Star Medal while serving in Vietnam. While in Vietnam, Dr. Bauman and a colleague orchestrated life saving open heart surgery for a Vietnamese adolescent, a story which was written up in the December 1969 issue of *Look Magazine*.

Dr. Bauman's career includes twenty years of clinical practice with the Veterans Administration as well as academic medicine, most recently with Ohio State University Medical Center. He is the author of over forty scientific publications.

He has always felt privileged to be a physician and to have the opportunity to significantly impact his patients' lives. He has a special interest in cardiovascular examination and feels that a careful history is an essential element in providing good medical care.

Dr. Bauman lives in Elkin and has a daughter who is a nurse practitioner and a son who is a computer engineer. He is an avid (though undistinguished) golfer, biker and a fan of movies and good fiction.

What is an Internal Medicine physician?

Internal medicine is the medical specialty dealing with the prevention, diagnosis and treatment of adult diseases. **Physicians specializing in internal medicine are called Internists.** Dr. Bauman cares for ambulatory patients (out-patients) acting as their primary care physician. In addition to preventive medicine, internists are trained to manage serious and complex illnesses for all ages of adult patients.

Why should I select an Internist as my doctor?

Internists receive additional training beyond medical school, typically three years, in order to achieve Board Certification in internal medicine. This additional training includes conditions of the heart, endocrine system, digestive system, blood, infectious disease, kidney, lungs/ respiratory, geriatric medicine and many other conditions affecting adults.

Why is Dr. Bauman a good choice for my doctor?

Dr. Bauman is Board Certified in Internal Medicine by the American Board of Internal Medicine. He has been in private practice since 1997 and was trained in evidence based medicine, which is medicine based on extensive research and trials. He uses this knowledge to provide premium care. Dr. Bauman is known for his excellent relations with patients, especially his ability to listen. He has a reputation with patients as being a very caring physician with an excellent record of practicing high quality comprehensive medicine.

As an internist he works with younger adults encouraging them to lead a healthy lifestyle and with older patients he has the knowledge and experience to handle the issues of aging. Make your appointment today to see Dr. Bauman! He is accepting new patients and accepts most insurance, including Medicare and Medicaid.

Why is it important to be Board Certified?

Board Certification means that the doctor has completed specialist training in Internal Medicine and has passed the board exam for certification with the American Board of Internal Medicine. Continuing medical education is a requirement to keep board certification. This sets the standard for excellence in the practice of Internal Medicine and is the “Gold Standard” of the profession as the physician has achieved the highest levels of education.

Why is it important that Dr. Bauman is my doctor if I have to be hospitalized?

Dr. Bauman is an outpatient provider, but he belongs to Blue Ridge Medical Group which also provides care in the local hospital. If you are hospitalized at the local hospital you will be taken care of by one of our Blue Ridge Medical Group physicians. This provides for seamless care, close communication and excellence in continuity of care as information about your medical history is transferred quickly and completely by our physicians. You can have peace of mind knowing that you will have the highest standard of physician care if hospitalized.

What do other patients say about Dr. Bauman?

Patients say that Dr. Bauman is a good listener who takes his time, is caring and concerned and has a genuine interest in each of them.
